MAXIMIZE YOUR TAX-FREE\(^1\) EARNING POTENTIAL

Just like a traditional savings account, your HSA earns interest which is not taxed. This makes your HSA an effective component of your retirement strategy. Once your account meets a certain threshold, you can invest in mutual funds to maximize your HSA earning potential.

Options to fit your needs

A wide range of investment and savings options are offered, designed to suit your individual needs and financial goals:

No-risk, FDIC-insured cash account
HealthEquity’s standard, low-interest, FDIC-insured cash account. This is the default option when opening an HSA.

Low-risk Yield Plus
Yield Plus\(^2\) allows you to increase earning potential with minimal risk. Interest rates vary based on your HSA balance, but are higher than FDIC-insured interest rates. Funds invested in Yield Plus are not FDIC-insured, but remain liquid in your HSA for spending or investing as desired.

Varying risk mutual funds\(^3\)
A diverse lineup of mutual funds are selected by HealthEquity Advisors, LLC, HealthEquity’s SEC-registered investment adviser subsidiary. Investor Choice (details on page 5, fees may apply) allows members to choose the strategy that best fits their needs:

The investment spectrum provides an option for every member, regardless of age, HSA balance, or investment experience. HealthEquity meets you where you are most comfortable, and provides web-based tools and resources to make investing simpler.

---

\(^1\) HSAs are never taxed at a federal income tax level when used appropriately for qualified medical expenses. Also, most states recognize HSA funds as tax-free with very few exceptions. Please consult a tax advisor regarding your state’s specific rules.

\(^2\) Yield Plus is a non-FDIC insured group funded annuity agreement. Current interest rates, terms and conditions are available on the member portal.

\(^3\) Investments available to HSA holders are subject to risk, including the possible loss of the principal invested and are not FDIC insured or guaranteed by HealthEquity, Inc. HealthEquity, Inc. does not provide financial advice. HealthEquity Advisors, LLC, a wholly owned subsidiary of HealthEquity, Inc. and an SEC-registered investment adviser, does provide web-based investment advice to HSA holders that subscribe for its services (minimum thresholds and additional fees apply). HealthEquity Advisors, LLC also selects the mutual funds offered to HSA holders through the HealthEquity, Inc. platform. Registration does not imply endorsement by any state or agency and does not imply a level of skill, education, or training. HSA holders making investments should review the applicable fund’s prospectus. Investment options and thresholds may vary and are subject to change. Consult your advisor or the IRS with any questions regarding investments or on filing your tax return. Before making any investments, review the fund’s prospectus.
Take the guesswork out of investing with Advisor™
(Powered by: HealthEquity ADVISORS, LLC)

HealthEquity is one of the first HSA administrators to provide access to individualized, web-based investment advisory services. Advisor is a web-based automated investment advisor tool offered by HealthEquity Advisors, LLC and is accessible through the HealthEquity member portal. With Advisor you receive professional online investment guidance and access to convenient online tools designed to help you maximize your earnings. When you sign up for Advisor, you complete a simple profile that identifies your risk preferences and retirement goals. Based on this profile, Advisor provides guidance and management on:

- How much cash to keep in your HSA.
- How much to invest.
- How to optimally diversify among the available mutual funds to minimize risk and maximize growth.

3 options for investing

HealthEquity offers access to three service options for investing in mutual funds. Depending on your preference for managing the funds on your own, or letting Advisor do all of the work, you can choose from Auto-pilot, GPS or Self-driven. All mutual funds available for investment are selected by HealthEquity Advisors, LLC.

All investment related fees are calculated based on the average daily investment balance. Services fees are charged to your HSA cash account on the same day each month corresponding to your subscription date, and appear on your monthly statement. If your balance is not sufficient to pay the fees, billing will postpone until more money arrives. Multiple months of unpaid Advisor fees may result in suspended access until an HSA contribution is made. Advisor will not sell investments to settle any unpaid fees, though you can initiate the sale of funds in “Edit Profile” by changing the cash setting to the amount you want available in your HSA cash balance.

Investments available to HSA holders are subject to risk, including the possible loss of the principal invested and are not FDIC insured or guaranteed by HealthEquity, Inc. HealthEquity, Inc. does not provide financial advice.
HealthEquity offers the Investor Choice fund lineup of low cost mutual funds with a monthly investing administration fee. Investor Choice is a lineup of mutual funds which provides flexibility for members to reflect their investment philosophies and strategies. Other than the monthly investment administration fee and the respective mutual fund expense ratio there are no trading costs, commissions or fund minimums.
