QCSI Expands its Solution Footprint in the CDH Market by Offering Business Process Outsourcing Services from HealthEquity

Partnership with HealthEquity designed to provide low cost entry into CDH market with leading MyHealthBank product & premier CDH services

Phoenix, Ariz., May 8, 2006 – QCSI® (Quality Care Solutions, Inc.), a leading provider of advanced information technology and enterprise application software and services for health insurers and benefits administrators, announced today that it has expanded its solution footprint in the Consumer-Directed Healthcare (CDH) market by offering business process outsourcing (BPO) services through its alliance with HealthEquity®, Inc. HealthEquity provides comprehensive financial and client advisory CDH services to employer groups, insurance companies, health plans, third party administrators nationwide, with a hands-on approach to help its clients understand how to get the most out of their consumer driven plans.

The combined QCSI and HealthEquity offering will enable health plans to administer health savings accounts (HSAs), flexible spending accounts (FSAs), and health reimbursement arrangements (HRAs) using QCSI's award-winning QNXT and MyHealthBank software. The solutions will provide HealthEquity with an unparalleled CDH platform and services offering — providing health plan clients with access to a low cost entry and all-inclusive solution for consumer driven health care administration.

“QCSI is a proven industry leader, providing innovative health care information management software to empower the health care payor enterprise and the emergent consumer driven healthcare industry,” notes Stephen D. Neeleman, M.D., CEO of HealthEquity. “HealthEquity’s client advisory platform and services combined with QCSI’s products will provide an unrivaled best-in-class solution for health plans and large employers.”

“We are excited about our alliance with HealthEquity, as it will provide payors with the financial and advisory services to complement our MyHealthBank product and quickly and efficiently enter the CDH market with minimal time and resource investment,” stated Dave Engert, CEO of QCSI.

Engert continued, “We have earned a solid market position with our QNXT and MyHealthBank products and professional services, and we are pleased to offer payors point-of-entry access as they embrace the mounting momentum of the consumer driven healthcare economy.”

About HealthEquity[®], Inc.

HealthEquity offers a complete solution for businesses and individuals that are seeking a consumer driven health plan. HealthEquity specializes in offering health care accounts, such as Health Savings Accounts, supplemented with unparalleled health care financial services and client advisory tools. These tools give clients the support they need to navigate the health care system and make wise spending decisions. HealthEquity offers its consumer driven solution as a stand alone product and as an integrated product. HealthEquity manages consumer-driven plans for over 1,000 employer groups nationwide.
